

LOADS OF OPTIONS

That's what you get with the new Cat® Articulated Trucks Bare Chassis line.

Available in four models and a variety of arrangements, with customized bodies selected specifically for each application, these new trucks are versatile enough for just about any industry — from mining and quarry, to heavy construction, to waste and energy. You get the quality of Cat equipment, the unparalleled service and support provided by the Cat Dealer network, and the body that delivers the exact capability you need.

Cat Articulated Trucks deliver the most powerful combination of technology and performance in the industry.

Updated transmission and traction control systems maximize productivity. The updated cab reduces driver effort and increases output. And combined service points and extended service intervals improve availability.

The best trucks with the most options — available only from your local Cat Dealer.
