Another industry first for compact stump cutters.

Swing into Action

- 27 hp or 35 hp Vanguard engine
- Flotation tires
- Swing-out control station
- 51" cutting width
- Maintains full depth across entire width of cut

MODEL	RG27 Super Jr	RG35 Super Jr
	Gasoline Powered	Gasoline Powered
Weight - lb (kg)	1,770 (803)	1,830 (831)
Length - inches (cm)	114 (290)	114 (290)
Hood Height - inches (cm)	37 (94)	37 (94)
Maximum Height - inches (cm)	52 (132)	52 (132)
Width - inches (cm)	35 (89)	35 (89)
Width with Dual Wheels - inches (cm)	52.5 (133)	52.5 (133)
Ground Drive	Self-Propelled Hydraulic, Variable Speed	Self-Propelled Hydraulic, Variable Speed
Engine - hp (kW)	27 (20) Vanguard	35 (26) Vanguard
Fuel Tank - gal (L)	6.5 (24.6)	6.5 (24.6)
Clutch	Electromagnetic w/Wheel Brakes	Electromagnetic w/Wheel Brakes
Super Tooth®	18 total	18 total
Cutter Wheel - inches (cm)	17.25 x 1 (43.82 x 3)	17.25 x 1 (43.82 x 3)
Cutting Depth - inches (cm)	12 (30)	12 (30)
Cutting Height - inches (cm)	24.5 (62.2)	24.5 (62.2)
Cutting Width - inches (cm)	51 (130)	51 (130)

Swing-out controls for a better view of the cutting action

Swing-Out Operator Control Stations

3-position swing-out operator control stations to allow better visibility

New from RAYCO is the RG27 Super Jr, the latest addition to the Super Jr line of compact stump cutters. Packed with user-friendly features, this machine is designed to make the chore of removing unwanted tree stumps as easy as possible. The swing-out control station gives operators a better look at the cutting action and swings in-line for travel through gates. The slewing-ring pivot design lowers the center of gravity and provides a low-maintenance alternative to pin-style pivots. It also means that maximum cutting depth can be maintained across the entire width of cut, unlike competitors who only achieve maximum depth in the middle. Wider tires improve flotation and traction while providing a more robust appearance.

Cutting power and torque have gotten a boost, provided by a 27hp Vanguard gasoline engine and improvements to the cutter wheel drive train. The wide cutter wheel housing and more chip collection capacity means more power available for cutting and less wasted on regrinding chips. And with a cutting width of 51", the RG27 cuts a full 12" wider than competitors. An optional hydraulic backfill blade makes clean up fast and easy.

Available with optional hydraulic backfill blade and dual rear wheels (backfill blade standard on the RG35)

51-inch cutting width

Enhanced drive train maximizes cutting power

Think Smart, Think Safe.....
 We care about your safety. When operating your RAYCO machinery always wear an approved helmet complete with ear muffs, face shield and the proper eyewear. Never operate under the influence of alcohol or drugs. Know your RAYCO, read and understand your owner's manual cover to cover.
