

INTRODUCING DRAGON SCREED

Our revolutionary design allows contractors to complete flatwork projects with 50% less labor. This attachment levels subgrade and screeds concrete and is quickly customizable to meet the needs of any project.

WHAT CAN YOU DO WITH DRAGON SCREED?

From large parking lots to residential driveways to municipal roadways, Dragon Screed will reduce your labor, save you time and make you more money.

KEY BENEFITS

Achieve project versatility with an all-in-one tool for screeding concrete and leveling subgrade.

BOOST PROFITS

Dragon Screed has the ability to pay for itself in a single 200 yard pour - and that's on top of your project's profit margin. Your company's profitability will soar.

REDUCE HARD LABOR

Pour more concrete with 50% fewer employees, while at the same time reducing the hard, physical labor associated with dragging concrete, gravel, and finish-work by up to 50%.

IMPROVE QUALITY

Pour concrete with less moisture, reducing shrinkage cracks and surface scaling. Our unparalleled subgrade consistency leads to stronger, more uniform slabs.

IMPROVE VERSATILITY

Our patented design allows you to screed and level concrete from either side of your machine or down the middle in either forward or reverse.

SAVE TIME

Screed and finish concrete and level subgrades faster and quickly adjust the machine as needed, allowing you to complete more projects.

COMPLETE JOBS LIKE THIS
With Dragon Screed & only 2-3 workers per pour

SKID-STEER MOUNT

Features a hydraulic pivot that allows you to pour on a pitch or from an uneven surface.

WHAT'S INCLUDED

Dragon Screenshot comes with every tool you need to complete a perfect pour and drastically reduce your labor.

SKID-STEER MOUNT

Includes a skid-steer mount with hydraulic pitch control for use from either side of your machine or down the middle in either forward or reverse

SCREED BARS

Includes a 10 ft, 15 ft, or 20 ft screed bar with 1 ft, 2 ft, & 4 ft extensions for pours from 6-22 ft wide

FLOATS

Includes (1) 4 ft, (1) 5 ft, and (2) 6 ft floats for smoothing, removing imperfections, and consolidating the concrete.

VIBRATORS

Includes vibrators with multiple speeds that attach to the screed bar and each individual float for a smooth, level finish.

SUBGRADE CHANNELS

Includes (1) 3 ft, (1) 4 ft, (1) 5 ft, and (2) 6 ft channels adjustable from 4 to 8 inches for leveling subgrade

ADJUSTABLE DESIGN

Includes an adjustable mount design for quickly removing and reattaching as needed throughout the pour

PULL HANDLES

Includes quick-attach handles for ultimate maneuverability on small jobs making Dragon Screenshot the only screed you'll need.

CONTROLS

Includes easily maneuverable controls, a wireless remote control, and a power unit that allows you to control the speed of vibration.

FRONT MIRROR

To see form & concrete

BACK MIRROR

To see behind skid-steer for safety

SUBGRADE ATTACHMENTS

That grade base at 4 to 8 inch depths

FLOAT & VIBRATOR ATTACHMENTS

That drag, float, & vibrate for a smooth, even surface every time

SCREED BARS

10 ft, 15 ft, or 20 ft Screenshot with 1 ft, 2 ft, & 4 ft extensions for pours from 6-22 ft wide

A TRUE STORY ABOUT WHAT DRAGON SCREED CAN DO

With Dragon Screed, a contractor poured 33 truckloads, each filled with 9 ¼ yards of concrete and delivered 15 minutes apart. He started the job at 6:00 AM with only 8 workers, two of which were high school students, and they were completely finished pouring, brooming, and sealing by 4:30 PM.
